

The Students Association of Natural Science. Upsala.

Geological Division.

Meeting January 29th 1925.

20 persons present.

The following officers were appointed:

N. G. HÖRNER, Secretary.

E. LJUNGNER, Treasurer.

S. ROSÉN and J. EKLUND, Reviewers.

Mr. C. SAMUELSSON gave an account of frostweathering in arctic regions. (See this volume.)

Dr. ASTRID CLEVE-EULER made an addition to her preceding lecture on the »ås»-plane at Dals-Ed.

Meeting February 12th 1925.

14 persons present.

Mr. E. LJUNGNER spoke on tectonical studies in Bohuslän.

Dr. E. SVENONIUS delivered a hydrological lecture on possible infiltration of water from the lower part of Dalälven to some adjacent »åsar».

Meeting February 26th 1925.

34 persons present.

Mr. G. A. GUSTAVSSON was appointed reviewer.

Prof. H. G. BACKLUND read a paper on magmatic tectonics in Västerbotten. (See Geologiska Föreningens Förhandlingar Bd. 47, 1925.)

Meeting March 12th 1925.

24 persons present.

Mr. T. HAGERMAN spoke on stratigraphic and structural investigations within South-western Spitzbergen. (See Geografiska Annaler, Stockholm 1925.)

Mr. F. CÖSTER gave an account of glacial-geological studies in the Braganzadistrict. (See Geografiska Annaler, Stockholm 1925.)

Meeting March 26th 1925.

17 persons present.

Prof. P. J. HOLMÖVIST gave a lecture on new views of the problems of the »Caledonian Mountain range».

Meeting April 6th 1925.

27 persons present.

Prof. C. WIMAN spoke on Pterosaurians. (See this Volume.)

Meeting April 27th 1925.

18 persons present.

Mr. E. LJUNGNER read a paper on the Ortler-Alps.

Mr. E. WIMAN demonstrated the geological map of Lindholmen.

Prof. H. G. BACKLUND reviewed several geological text- and handbooks.

Meeting September 29th 1925.

10 persons present.

The following officers were appointed:

E. WIMAN, Secretary.

E. LJUNGNER, Treasurer.

N. G. HÖRNER and D. MALMÖVIST, Reviewers.

Mr. E. WIMAN gave an account of the silver mine of Hällefors.

Meeting October 15th 1925.

11 persons present.

Mr. E. LJUNGNER spoke on the rhomben-porphry of Bohuslän.

Mr. D. MALMÖVIST reviewed: VICTOR HACKMAN, Das Gebiet der Alkaligesteine von Kuolajärvi in Nordfinnland. (See Bulletin de la Commission Géologique de Finlande 72, 1925.)

Meeting October 29th 1925.

21 persons present.

Mr. B. BOHLIN read a paper on giraffes. (See *Palaeontologia Sinica*. Ser. C. Vol. 4. Fasc. 1, Peking 1926.)

Mr. G. BESKOW gave a lecture on the petrographic-tectonical problems of Södra Storfjället. (See *Geologiska Föreningens Förhandlingar* Bd. 47, 145, 1925.)

Meeting November 6th 1925.

11 persons present.

Prof. I. I. TANATAR gave an account of the ore deposits of Krivoj Rogs in Southern Russia.

Meeting November 19th 1925.

14 persons present.

Prof. J. J. SEDERHOLM spoke on the precambrian stratigraphy of South-western Finland.

Meeting December 7th 1925.

15 persons present.

Prof. A. G. HÖGBOM gave a lecture on some late glacial driftphenomena.

Prof. H. G. BACKLUND spoke about smaragds.

Meeting January 21st 1926.

16 persons present.

The following officers were appointed:

E. WIMAN, Secretary.

E. LJUNGNER, Treasurer.

N. G. HÖRNER and D. MALMQVIST, Reviewers.

Dr. ASTRID CLEVE-EULER gave an account of shell-beds and post-glacial level-changes in the Skagerak-district. (See *Geologiska Föreningens Förhandlingar*. Bd. 48, 321, 1925.)

Meeting February 11th 1926.

13 persons present.

Prof. H. G. BACKLUND read a paper on the connection between tectonical and magmatic activity. (See The Geological Magazine 1926.)

Mr. D. MALMQVIST reviewed: Electrical prospecting in Sweden by K. SUNDBERG, H. LUNDBERG and J. EKLUND. (See Sveriges Geologiska Undersökning. Ser. C, 331, 1925.)

Meeting March 2nd 1926.

19 persons present.

Mr. E. LJUNGNER spoke on the younger diabases in Bohuslän and their relation to the traps of the Kristiania district and Västergötland.

Meeting March 11th 1926.

19 persons present.

Doc. F. ENQVIST gave a lecture on isostasy and movements in the earth. (See Geologiska Föreningens Förhandlingar. Bd. 48, 303, 1926.)

Mr. N. G. HÖRNER spoke on a new theory of glacial time.

Meeting March 24th 1926.

11 persons present.

Doc. B. ASKLUND gave an account of the age-relation of the rocks in the Åland Archipelago.

Prof. R. SERNANDER spoke on LYELL and his researches at Fiskartorpet.

Meeting April 8th 1926.

24 persons present.

Prof. H. G. BACKLUND gave a lecture of jotnium in the »Caledonian Mountain range».

Mr. E. LJUNGNER reviewed: On the basaltic lavas penetrated by deep boring for coal at Bhuswal, Bombay by L. LEIGH FERMOR. (See Geological Survey of India 1926.)

Meeting April 29th 1926.

11 persons present.

Doc. G. TROEDSSON spoke on the Cephalopods of Grønland. (See On the middle and upper Ordovician Faunas of Northern Grønland. I. Cephalopods. Meddelelser om Grønland. LXXI. København 1926.)

Meeting September 16th 1926.

16 persons present.

The following officers were appointed:

B. ASKLUND, Secretary.

D. MALMQVIST, Treasurer.

N. G. HÖRNER and D. MALMQVIST, Reviewers.

Mr. N. G. HÖRNER spoke on the periglacial climate.

Mr. E. WIMAN gave an account of the new-discovered orbicular granite at Upsala.

Meeting September 16th 1926.

20 persons present.

Prof. H. G. BACKLUND spoke on the Geological Congress in Madrid 1926.

Mr. E. WIMAN reviewed: Die neuentdeckten Platinfelder im mittleren Transvaal und ihre wirtschaftliche Bedeutung von HANS MERENSKY. (See Zeitschrift der Deutschen Geologischen Gesellschaft. Vol. 78, 1926.)

Meeting October 14th 1926.

12 persons present.

Doc. B. ASKLUND gave a lecture on optical studies in the pyroxene group.

Mr. T. KROKSTRÖM reviewed: A. HOLMES, Estimates of geological time. (See The Geological Magazine 1926.)

Meeting October 28th 1926.

13 persons present.

Prof. H. G. BACKLUND spoke on an excursion to the silver mine of Nasafjäll.

Mr. D. MALMQVIST reviewed: H. HAUSEN, Über die präquartäre Geo-

logie des Petsamo-Gebietes am Eismeere. (Bulletin de la Commission Géologique de Finlande, 76, 1926.)

Meeting November 10th 1926.

18 persons present.

Prof. A. HAMBERG gave an account of the temperature in the bottom-layers of the ice cap.

Meeting November 29th 1926.

20 persons present.

Mr. J. EKLUND spoke on the ore prospecting district of the world.

Doc. B. ASKLUND reviewed: Descriptions to the geological sheets of »Skrikerum» and »Karlsborg». (See Sveriges Geologiska Undersökning. Ser. Aa, 157 and 162.)
