

The Students Association of Natural Science. Upsala.

Geological Division.

Meeting April 28th, 1933.

17 persons present.

Prof. A. G. HÖGBOM gave a lecture on »Something about the study of meteorites».

Meeting October 19th, 1933.

19 persons present.

The following officers were appointed:

E. GRIP, Secretary.

G. WÄNGSJÖ, Treasurer.

Prof. H. BACKLUND spoke about »Tertiary plutonism in NE Greenland».

Meeting October 31st, 1933.

21 persons present.

Mr. P. THORSLUND gave a lecture on »The disintegration of limestone and the marl mud».

Meeting November 16th, 1933.

16 persons present.

Prof. S. MATTSO^N spoke about »Isoelectric weathering».

Meeting November 30th, 1933.

12 persons present.

Mr. L. MALMQVIST gave a lecture on »Late researches on the reflection of minerals with great absorption of light».

Meeting December 8th, 1933.

17 persons present.

Docent N. HÖRNER spoke about »Desert processes in the continental basins of Central Asia».

Meeting January 25th, 1934.

11 persons present.

The following officers were appointed:

E. GRIP, Secretary.

G. WÄNGSJÖ, Treasurer.

Mr. E. GRIP read a paper on lithophysae.

Meeting Februari 8th, 1934.

13 persons present.

Docent H. v. ECKERMANN gave a lecture on »The geology of the Loos region».

Meeting March 8th, 1934.

18 persons present.

Mr. J. ÖSTER gave an account of »Some observations on the country rocks in the mountains of Southern Jämtland».

Meeting March 22nd, 1934.

16 persons present.

Mr. W. LARSSON spoke about »Some statistical structure diagrams of rocks from Nerike».

Mr. P. THORSLUND demonstrated an Obolus-conglomerate from Skattungbyn.

Meeting April 19th, 1934.

19 persons present.

Dr. F. BROTZEN gave an account of »Das Palaeozoicum in W Podolien (Gotlandium und Old red)».

Dr. W. ZYCH reviewed his researches on the growth of the Pteraspids.

Meeting April 26th, 1934.

13 persons present.

Mr. S. LANDERGREN read a paper on »Some observations on the country rocks of the mining district of Lekeberg».

Meeting May 5th, 1934.

29 persons present.

Prof. O. HOLTEDAHL gave a lecture »On the sandstone series of Finnmarken and on the sparagmite formation of Southern Norway».

Meeting October 18th, 1934.

14 persons present.

The following officers were appointed:

E. GRIP, Secretary.

G. WÄNGSJÖ, Treasurer.

Mr. N. HOLMIN demonstrated fossils of Devonian age, collected at Wildungen, Germany.

Meeting November 8th, 1934.

12 persons present.

Dr. ED. WENK spoke about »Geologische und petrographische Ergebnisse aus der Silvretta (Graubünden)».

Meeting November 15th, 1934.

15 persons present.

Prof. H. BACKLUND demonstrated the new geological wall map of Fennoscandia.

Meeting November 22nd, 1934.

15 persons present.

Mr. E. GRIP gave a lecture on »The geology of the Arvidsjaur region».

Meeting December 12th, 1934.

22 persons present.

Mr. F. HJULSTRÖM spoke about »Erosion of solid rocks by rivers».

Meeting January 28th, 1935.

5 persons present.

The following officers were appointed:

E. GRIP, Secretary.

W. LARSSON, Treasurer.

Meeting February 14th, 1935.

13 persons present.

Mr. W. LARSSON gave an account of the intrusive body at Nygårdén in Nerike.

Meeting February 28th, 1935.

13 persons present.

Docent B. BOHLIN spoke about »The fossil-bearing series between Tossun nor and Oro (Tsaidam)».

Prof. C. WIMAN reviewed a paper by Yuan and Young: Occurrence of *Lystrosaurus* in Sinkiang (Bull. Geol. Soc. China).

Meeting April 11th, 1935.

13 persons present.

Prof. H. BACKLUND gave a lecture on »Gravity measurements and their geological consequences».

Meeting April 26th, 1935.

18 persons present.

Dr. N. SUNDIUS spoke about »Magmatic restvolutions rich in iron and magnesia».

Meeting May 6th, 1935.

15 persons present.

Mr. E. NORIN gave a lecture on »The Tertiary of the Tarim basin».
